

ROHIT NIKAM

AI Product Management Engineer | Full-Stack Developer | Generative AI

rohitnikam195@gmail.com | 9309794082 | Nashik, Maharashtra | github.com/rohitnikam45 | Open to Relocation

PROFESSIONAL SUMMARY

Final-year B.Tech CSE graduate with hands-on experience building AI-powered products end-to-end. Proficient in Generative AI (LLMs, RAG, LangChain), Python backend (FastAPI, REST APIs), and cross-platform development (Flutter, Next.js 15). Experienced in product feature definition, user research, Agile delivery, and full product lifecycle from ideation to deployment. Seeking to apply Generative AI and product development expertise at Accenture.

TECHNICAL SKILLS

Generative AI & LLMs: Groq API, LLaMA 3.3-70B, DeepSeek, HuggingFace, Prompt Engineering, SSE Streaming, RAG Pipelines, LangChain
Backend & APIs: Python, FastAPI, REST API Development, LangChain, Node.js, PHP, MySQL, Firebase
Frontend & Mobile: Flutter (Android/iOS), Next.js 15, React.js, HTML/CSS, Material Design, Responsive UI
Product & UX: Agile/Scrum, Feature Scoping, User Stories, Figma Prototyping, UX Research, Product Roadmapping
Security & DevOps: Penetration Testing, OWASP, Network Security, Git/GitHub, Vercel, Cursor IDE

PROJECTS

CareerPath AI v2.0 — AI Career Recommendation Android App 2024 – 2025

Flutter | Groq API (LLaMA 3.3-70B) | LangChain | RAG | FastAPI | Python | Team RebelDevs

- Defined product roadmap and led end-to-end development from feature scoping to production APK — delivered across 6 Agile sprints with iterative releases
- Integrated Groq API (LLaMA 3.3-70B) with real-time SSE streaming, markdown rendering, and personalized AI chatbot for career guidance using Generative AI
- Built RAG pipeline with LangChain and FastAPI Python backend for context-aware responses from a curated career knowledge base
- Designed AI Skill Gap Analysis feature — LLM compares user profile against target career, generates actionable upskilling roadmap; migrated from HuggingFace to Groq improving latency ~60%

Urbanwearx — Headless E-Commerce Platform

2024

Next.js 15 | WooCommerce REST API | Razorpay | PHP | Vercel | urbanwearx.in

- Architected full headless e-commerce platform with Next.js 15 frontend (Vercel) and WooCommerce REST API backend for a premium Indian fashion brand — live at urbanwearx.in
- Conducted market research, defined UX requirements, and delivered a custom luxury checkout flow; integrated Razorpay + COD and resolved payment gateway domain mismatch via PHP child theme override

EDUCATION

Bachelor of Technology — Computer Science & Engineering

2023-2027

Sandip University, Nashik, Maharashtra | CGPA: 7.66

Coursework: Data Structures, Computer Networks, Web Programming, DBMS, Cybersecurity

ADDITIONAL

- Practical cybersecurity expertise — penetration testing, OWASP Top 10, network security fundamentals, API security hardening
- AI-assisted development using Cursor/Windsurf IDEs for rapid full-stack prototyping and production delivery
